## J.SLYindigenousexperiences: Artist / Designer

Josh Sly

In addition to working with Michelle from Limelight Creative on graphic design projects I am interested in hiring Josh Sly Indigenous designs for some of the creative on the single covers. Josh is the boyfriend of my good friend Chantel.

**Josh Sly** is a proud Biripi, Worimi and Wiradjuri artist from Bathurst N SW. Josh started J.Sly Indigenous Designs in 2015 as a result of his passion and determination to learn more about his heritage and culture. Josh's art combined with local musicians' authenticity for organic music is a wonderful opportunity to blend different cultural perspectives and create something truly unique and meaningful through painted art for potential single covers of songs and promotional material.
